

IGUALA AVIÓN, BARCO Y TREN

A diagram illustrating the concept of equality. It features two identical red squares on the left and a white circle on the right. Above the squares is a black equals sign (=). Two black arrows point downwards from the equals sign, one to each of the red squares, indicating that the two squares are equal to each other.	An illustration showing three modes of transport: a white airplane with red accents flying in the sky, a red and green steamship on the water, and a blue train with a locomotive and several passenger cars on tracks.
